A. POLICY STATEMENT

The top priority of the International School of Choueifat – Khalifa City is the safety and wellbeing of all students, including students with additional learning needs, whether on campus or online learning. The school aims to create a healthy environment where students feel secure, valued, encouraged, listened to, and protected against any occurrence that may threaten the child's physical and mental health and against any form of abuse or exploitation. The school believes in an ethos which promotes a positive and supportive learning environment. The school asserts its complete commitment to ensure welfare, safety and respect for all children, without discrimination on grounds of ethnicity, gender, origin, religious doctrine, social standing or disability.

Protecting and enhancing our students' welfare is the collective responsibility of everyone at the school; every person who deals with students and their family has a role to play. To effectively honor this responsibility, every person dealing with a child must ensure that the welfare, wellbeing and best interests of the child operate as the primary and guiding focus of all dealings with the child.

The school shall ensure that the safeguarding committee or lead works closely with the wellbeing committee, head of inclusion, school counselor, social worker, health and safety officer as well as other relevant stakeholders (e.g., teachers, parents) to promote the safeguarding and security of all students. - Practice safe browsing and be mindful of suspicious browsers and pop-ups
- Remember to regularly change passwords, and choose strong passwords
- Be mindful about what they download online
- Be mindful of what, where and how they post online
- Be mindful of who they are connecting or communicating with online, and the dangers of engaging with strangers or people that they do not know in the physical world, especially if they request private or personal information. (Full name, home address, current location, pictures of oneself or one's home…)

The school shall ensure that all staff and students comply with ADEK's School Digital Policy, safeguarding personal data and restricting unauthorized sharing of student information.

Students shall be educated on digital literacy, including identifying online threats, responsible social media use, and reporting cyberbullying.

Cyber-Bullying and Cyber Harassment:

Cyber Bullying and Cyber Harassment, like other forms of bullying and harassment, imply a relationship where an individual has some influence or advantage that is used improperly over another person or persons, where the victim(s) is subjected to a disadvantage or detriment, and where the behavior is unwarranted and unwelcome to the victim. Cyberbullying occurs when technology is used to convey the bullying message to the victim, and/or to those around the victim. Mobile phones are the preferred medium for these acts, and the proliferation of apps such as WhatsApp as well as app based social media platforms make it increasingly easy to spread negative messages further than was

possible before. In addition, secondary perpetrators can readily forward and share the negative material, resulting in its rapid and widespread dissemination. The message may be viewed multiple times by a larger and more diverse audience – it could be sent to the victim's parents, siblings, teachers, neighbors, and broader social groups. The UAE's Child Rights Law (Federal Law No. 3 of 2016) affirms that all children have the right to education and basic protection in the UAE. Defamation, which is often at the core of cyberbullying, is a criminal offence in the UAE. Article 138 of the Penal Code stipulates that a punishment of jail and a fine (determined at the discretion of the judge) "shall be inflicted on any person who publishes through any means of publicity news, pictures or comments pertaining to the secrets of people's private or familial lives even if the same is true." The school is committed to raising awareness of the need for E-Safety in a technologically advancing world. The practice and education within the school aims to inform children, staff and parents of the need for safety in regard to content, contact and conduct when accessing the internet, social media, or other forms of e-communication.

Meeting procedures and record keeping are formalized, so as to ensure that a full and detailed record of incidents concerning students is kept securely.

1. DIRECTOR/DEPUTY DIRECTOR

The Director is the head of the pyramid and the person in charge of all that takes place in the school. He / She has scheduled meetings with all members of the administrative team. The Director reports to the Regional Office any serious concerns that the school has regarding individual students. The Regional Office will support the school Director to decide on the most effective course of action that should be taken, if required.

Teachers are the first point of reference in observing any behavioral concerns within the classroom. Teachers must communicate their concerns to the Child Protection Committee member in the school by filling out the Child Protection Incident report form (Appendix B).

3. SUPERVISORS

School supervisors are usually the first point of reference in observing any concerns outside the classroom. Emphasizing the acquisition of life skills through real-life experiences, the SABIS SLO® is a student-led society that empowers students to hold responsibility for many aspects of school life such as: Academics, Discipline, Social responsibility, Activities, Wellness etc. While providing opportunities for emotional, social, and moral growth, the SABIS SLO® helps students to

develop their academic, managerial, organizational, innovation and leadership skills through a variety of academic and non- academic activities.

The Student Life Coordinator works alongside students and is available for both formal and informal meetings with students in the SLO® regularly. The SLO® structure encourages students to be aware of the needs of others. Student Heads of Sections, Class Prefects, Outreach Prefects and Anti-Bullying Prefects are empowered to help deter or report any potential bullying or offensive acts that may take place at school or online. Students are also strongly encouraged to share their concerns with a member of staff that they feel comfortable talking to. These members of staff must report all such incidents to the concerned Child Protection Committee member in school.

In 2020, a ninth department, The Wellness Department, was added to the School's SLO® structure. The Wellness Department helps to promote a healthy lifestyle amongst members of the school community. Healthy lifestyle campaigns include raising awareness of the importance of sleep, stress management, keeping active, social and emotional development, and the benefits of healthy food. This Department also aims to ensure that the school is a safe environment for everyone by reporting safety issues and possible hazards on campus. The Wellness Department cooperates with, and works alongside, the School Clinic, and the Social Workers.

N. GUIDELINES FOR STAFF

This guidance is with respect to promoting positive interactions between staff members and students. All staff members should be aware of their position of authority and never abuse it. The students' best interest should always be a top priority.

- If there is a suspicion or gut feeling that something is not right regarding a student, they must not let it go unreported/unrecorded.
- Inform the student that we care about their wellbeing and that we are always there to talk about any of their concerns.
- Ensure all relationships with students remain appropriate and do not compromise the boundaries of trust. No suggestive remarks or gestures should be made in person or online.
- Ensure not to be alone with a child in a closed room: meet children in groups, or have another adult present (guardian, staff member or the teacher's assistant)

- Refrain from any physical contact (hugging/kissing)
- All school staff, including administrative and support personnel, must complete ADEK-approved safeguarding training annually when provided by ADEK. New employees must undergo safeguarding induction before assuming duties

O. COMPLAINTS AGAINST THE SCHOOL MEMBERS OF STAFF

- All accusations or complaints regarding the school members of staff (inclusive of third-party staff e.g. cafeteria, transportation and housekeeping employees) will be directly reported to the School Director.

- If an incident has occurred or is suspected to have occurred, whereby a student has been abused by a member of staff, the School Director must be informed immediately. A detailed report will be documented to record any important or crucial information regarding the suspected incident. In the case that the school director is at the centre of the investigation, the Regional Director shall be contacted immediately to investigate the case.

- An internal investigation will determine if the staff member in question is suitable to remain as an employee at the school. All evidence will be gathered and used to support an impartial outcome.

- If the outcome of the internal investigation is confirmed and the member of staff in question is guilty of misconduct (physical, emotional, or sexual abuse), the school will contact the relevant authority and any other concerned Governmental entity to seek further support in order to terminate the employment contract of the concerned employee and prevent any future employment opportunities within the UAE.

P. LOST CHILD POLICY

- All staff understand that student safety is their top priority, inside as well as outside the school campus when they are responsible for their wellbeing (e.g. school trips).
- The concerned Supervisor/Head Supervisor will call the parent/guardian of any student

that failed to arrive to school, to ensure that they are rightfully absent, and nothing has happened to them on their way to school. (Before 9AM).

- An attendance register is kept by each teacher for each class to ensure that all students are present. In addition to this, the number of times students requests to use the bathroom is documented, when necessary, in order to keep record of any overuse that can later be discussed with the parent/guardian.
- If any student goes missing, the teacher must immediately report their disappearance to the concerned corridor Supervisor and AQC. The AQC will be responsible for informing the school director, deputy director, office manager, head of security and head of IT department.
- Investigate and ask fellow students or classmates the last time they saw the missing student in question.
- All members of the Security Department will keep a close watch on all exit doors.
- The Head of Security will monitor and replay the CCTV footage to trace the lost child.
- If the child has not been found within 15 minutes, the parents must be informed. The school director/deputy director/officer manager must call the Police and continue the search with as many adult staff members as possible. Once the child has been found, and his / her safety confirmed, follow up procedure takes place for further action if necessary, and the incident is documented.

Q. SCHOOL DISMISSAL

- All students from Pre KG to Grade 2 will be dismissed from their classroom by a teacher, who will document who has collected the child in a dismissal record book at the end of every school day.
- All teachers are to be informed if any person, other than the guardian/ usual designated person, comes to collect the child. Before handing over the child, the teacher must speak with the corridor supervisor to clarify that there has been prior arrangement for this person to collect the child.
- If a parent would like a friend/family member or trusted individual to collect their child from school, they are obliged to send an e-mail to the school, stating the name of the adult who will collect their child. On arrival to the school, this individual must present their

Emirates ID (as a form of identification) to the corridor supervisor/ teacher in charge of dismissing the students.

- Upon written consent by parents, students in Cycle 3 are authorized to arrive at and depart from school unaccompanied.
- School already has an established system to record any absence and lateness and communicates this to parents regularly on the SABIS® Digital Platform and SABIS® Parent Application for all cycles.

R. DISMISSAL TIME PROCEDURES

- **PRE-KG TO GRADE 2**

Parents of children in Pre-KG to Grade 2 must collect their children promptly at dismissal time at 2:45 pm for PKG to Grade 2 (Monday to Thursday). On Friday, PKG to Grade 2 leave at 11:30. Pre-KG to Grade 2 students and guardians have designated exit doors.

It is the parent's duty to pick up their child on time as the school does not provide childcare after school hours. After dismissal time, lateness will be recorded, and the same conditions will apply as per Morning lateness.

Collection after 2:45 pm is not considered as late if an older sibling is collecting their younger sibling once their class finishes at 3:30pm. Students can wait in the classroom no later than 3:40 PM. If the older sibling is in Grade 5 or 6 and the parent would like for them to collect their younger sibling inside the school, then a Letter of Agreement should be completed.

Siblings in Grades 7 and above do not need to complete this agreement. Please note that the responsibility for the safety of the younger sibling lies with their older sibling once he/she has been collected from the classroom. Therefore, we advise parents to please be sure that he/she is mature enough to take good care of the younger child.

Afternoon Lateness is recorded for children who are not waiting for an older sibling to collect them. Lateness is considered unexcused/excused at the discretion of management. If it is unexcused, lateness will be recorded, parents will be notified and further consequences will apply, in line with the morning tardiness procedures.

- **GRADES 3 TO 12**

The school day will finish for Grades 3 to 12 at 3:30 pm from Monday to Thursday, and on Fridays the school day will finish at 11:30 pm. Students in Grade 3 and above may leave school through their designated gate at home time.

Grade 7 to 12 students may also leave through their designated gate. They do not require a Gate Pass; parents must inform school that they would like to opt-out if they do not want their Gr 7 to 12 child to exit through the Back Gate. Younger siblings (Pre-KG to Gr 6) may leave through the Back Gate, only if they are accompanied by an older sibling (Gr 7 and above). Their parents must sign a Letter of Agreement/Undertaking.

S. SAFETY ON SCHOOL TRANSPORT

- Our School Transport System follows the ITC's "Guiding Manual of School Transport in the Emirate of Abu Dhabi." At the school, we comply with all required safety guidelines in this guide.
- Safety belts must be worn on school buses at all times.
- The students must be seated according to an assigned seating plan.
- Discipline Prefects are appointed by SLO® to report any unacceptable/inappropriate/unsafe behaviour.
- A bus conductor is present on all school buses in the morning and the evening. The conductor gets down from the bus every time a student gets on or off the bus. The conductor steps down first, and then students proceed to enter/exit the bus. Once the conductor makes sure that all is in order and the students are safely on the bus or with their designated caretaker, then she gets on the bus again and the bus can proceed to the next drop off/collection point.
- Cameras are installed on all buses. These cameras ensure optimum safety and security for students, especially if there is an incident that requires supporting evidence for our investigation.
- School transportation drivers must drop children off in a designated safe drop-off area and remind students to be cautious when alighting from the bus.

T. PERSONAL CARE

- There are times when students experience accidents in school, which could result in them sustaining an injury of a sensitive nature – i.e. their genitals. It is important to remember that the child is entitled to respect and privacy. Any child that presents themselves with an injury of this nature must directly visit a member of the school medical team. A medical team must be present together during the examination.

- Any incident involving the child's genitals will not be inspected without the parent being informed and consent must be given for the examination. The parent can decide if they wish the School Doctor to carry out an examination, or they can decide to collect their child in order to take him/her to the nearest hospital.

- If a child has soiled their clothes, the child must be brought to the School Clinic immediately and the clean clothes that parents have sent at the beginning of the year will be used. Otherwise, parents will be called to provide a new set of clothes. In the Admissions policy of The International School of Choueifat, Khalifa City, it states that all students must be toilet trained.

- If a child is frequently soiling their clothes, the school administration will take further action to ensure optimum toilet training is being practiced at home, and future accidents are prevented for the child's health, safety and comfort.

- Bathrooms must remain clean at all times. Cleaners ensure there is adequate soap, water, hand dryers and toilet paper. Teachers must educate and remind the students the importance of using these hygiene accessories.

- All bathrooms are clearly signed 'Students Only' or 'Staff Only', therefore no confusion should occur between students and members of staff regarding their designated bathroom. No housekeeping member of staff should be present inside the students' bathrooms while there are students inside. If there is a need for any maintenance, the bathroom must be clearly cornered off with a sign.

U. PHYSICAL AND VIRTUAL CONTACT WITH A STUDENT

- As a member of staff, you should never initiate physical contact with a student.
- Students in the Primary School are starting to become more aware of their bodies through puberty and may be exposed to sexual knowledge from their peers, older siblings or the Internet. Therefore, it is important to refrain from physically approaching students or passing a comment on their physical appearance.
- There are many different nationalities, religions and cultures at the school. As a result of this diversity, we strongly remind each member of staff to be aware of what is deemed acceptable and unacceptable according to the laws and values of the UAE and the students' cultural background.
- If a student indicates verbally or physically that they are uncomfortable with physical touch, the member of staff will respect their wishes. Students who have or are currently experiencing sexual abuse might interpret an innocent touch as a sexual advance.
- A member of staff should never find themselves in the sole presence of one student in an enclosed space, unless there is CCTV. Preferable there will always be another person present in such situations.
- A member of staff should never personally invite a student to their house, or to any external activity outside the school.
- With the Secondary School students, it is even more important to demonstrate the boundaries between members of staff and students. Members of staff will not discuss sexual matters with students, in any context, unless approved by the school director for a valid reason, or in reference to the curriculum approved by the Regional Office.
- Staff are asked to maintain professional relationship with all students, inside and outside the classroom as highlighted in the Code of Conduct for Education Professionals in General Education published by the Ministry of Education, September 2022.
- Any member of staff who witnesses inappropriate physical touch between another member of staff and a student is obliged to report this incident to the School Director, who will then report it to the School Child Protection team, and the appropriate follow up will occur.
- Regarding social media, members of staff should not accept a friend request from any students currently registered at the school. Members of staff are fully aware that their social media profiles should be set to the most secure privacy settings, and their profile should

be locked.

V. Managing Security Breaches

The school is committed to ensuring the safety and security of all students, staff, and visitors by implementing a comprehensive security breach management system. This system is designed to prevent, detect, and respond to any unauthorized access, threats, or breaches that may compromise the wellbeing of the school community.

In compliance with ADEK's School Safeguarding Policy, the school shall:

1. Establish a Security Breach Response Plan – A formal procedure will be in place to lock down the school in the event of an emergency. The Safeguarding Committee or designated lead will oversee the implementation of this plan, ensuring immediate and coordinated action to mitigate risks. (Appendix C)
2. Train Staff on Security Protocols – All school personnel shall receive mandatory training on security breach procedures, including lockdown drills, emergency responses, and reporting mechanisms.
3. Appoint a Designated Security Lead – The Safeguarding Committee or Lead, including deputies in their absence, shall be responsible for managing security incidents, ensuring compliance with ADEK's policy, and maintaining physical and mental readiness for emergency situations.
4. Implement Digital Security Measures – In line with the ADEK School Digital Policy, the school will maintain secure data backup systems and a business continuity plan to safeguard against cyber threats. Any digital security breaches will be recorded, signed by the Principal, and stored securely for auditing and compliance purposes.
5. Conduct Regular Emergency Drills – The school will implement scheduled emergency planning and security drills, in compliance with the ADEK School Health and Safety Policy, ensuring all students and staff are well-prepared for potential threats.
6. Ensure Compliance and Reporting – Any security breach, including unauthorized access, threats, or digital security incidents, will be immediately reported to ADEK and other relevant authorities as per local regulatory requirements.
